Signing In At School

1.) Turn on your computer by pressing the power button. Once your computer boots you should see this screen:

StartScreen.png
Image not found or type unknown

2.) Press any key or click your mouse to bring up the sign in screen:

SignInScreen.jpg
Image not found or type unknown

3.) Type in your username and password and press enter.

Your username will be the *first initial* of your *first name* followed by your *entire last name*.

Example:

Student Name: John Smith

Username: jsmith

Should a student not remember their password, contact their teacher to submit a help ticket at: *https://www.stgrsd.org/staff/ithelpdesk* *and we'll get in touch!*

For faculty or staff members that don't remember their password, please click on the help desk link above or contact *techsupport@stgrsd.org*.

4.) Once you're signed in your desktop should look something like this, you're all set!
